BEYOND ICFO 2024: Machine Learning and AI

September 20, 2024
10:30 to 14:00
ICFO Auditorium

The annual **Beyond ICFO** career event aims to **bring together members of the Alumni Network and current ICFOnians**, allowing the entire community of ICFOnians to network and share insights on the multiple ways that scientific training may be applied in a variety of career paths. This year's discussion will focus on the hot topic of Machine Learning and AI

Tentative Agenda:

10:00 **Registration & Coffee**

10:30 **Welcome**

10:45 **KEYNOTE ADDRESS**

Christian Trefzger, Principal Administrator of Quantum Technologies & High-Performance Computing at the European Commission
