

# ALUMNI SEMINAR: (Almost) 7 years in Denmark

OSAMU TAKAYAMA

October 04, 2021
15:00 to 16:00
Online (Zoom)

Osamu Takayama is currently a senior researcher in DTU - Fotonik, the department of photonics engineering at Technical University of Denmark (DTU). He received Ph.D in photonics from ICFO and Polytechnique University of Catalunya (UPC) in 2012 with Prof. Lluis Torner and Prof. David Artigas as supervisors.

**ABSTRACT:**
In this seminar, I would like to share my experiences in academia after ICFO. My talk will consists of:

(1) My background from Japan to Denmark via ICFO,
(2) Experiences at DTU, Denmark, as postdoc/researcher/senior researcher and differences between DTU and ICFO,
(3) Some advices to be beyond a postdoc in Denmark and elsewhere (what kinds of experiences you will need in your CV), which I learned sometimes in a bit hard way, for those who consider academia as their career path.

**Alumni Seminar, October 4, 2021, 15:00. ICFO Auditorium**

**Hosted by Alumni Network**
