Boost your career: Communicate your value & Network with confidence

AMINI SAID

April 25, 2023
15:00 to 17:00
Mir Puig Homage room (MP202)

A Career workshop on Networking
Two main factors for career success are communication and networking. This workshop takes you through the process of how to communicate your unique value when networking with professionals. As a result of becoming clear on your value you will be able communicate with more confidence and clarity. You will learn the mindset and strategies for effective networking to start building meaningful professional relationships and attract career opportunities to you.
During this 3 hour workshop you will learn:

How to Communicate your unique value
How to Network effectively and confidently
How to develop a success Mindset to level up your career

As a result of taking this workshop and IMPLEMENTING this content, you will develop a growth mindset, identify your unique value, communicate it effectively while expanding your professional network whether in person or online.
A few benefits of networking early on in your career

attract career opportunities to you
be sought after by recruiters
become known as an expert/authority in your field
more visibility means access to more people and resources

Trainer: Dr. Amini Said?
Dr. Amani Said is the founder of Success Beyond The Lab, a company that is on a mission t

empower scientists in launching dream careers while making an impact in our society

Her curiosity and passion for understanding life led her to pursue a Ph.D. in Developmenta Biology at the Max-Planck Institute in Dresden, Germany. Having dealt with burn-out an mental health challenges early on in her career brought her to discover the field of persona development. Travelling all across the globe she learned from the best coaches and trainer in the field of personal growth, such as Tony Robbins, T Harv Ever, Deepak Chopra, Lis Nichols and many more. This helped her to uncover her potential and develop a growt mindset to create a dream career and life for herself. Applying these same tools she ha coached and trained over a thousand scientists in career & personal development

i¿½Your Career is like a never-ending experiment, be Curious, Explore and Enjoy t e Re-Search - Amani Saidi¿½
