

COURSES: Python Basic and Advanced

MANUEL GOMEZ GONZALEZ

November 29, 2023 to December 12, 2023

10:00 to 13:00

Mir-Puig Elements and BLR (on November 30)

We have the pleasure to invite you to the second edition of Python courses - Basic and Advanced.

The courses will be taught by:

Dr. Manuel Gomez Gonzalez

Senior Researcher at Institute for Bioengineering of Catalonia (IBEC) & Python Instructor

WHEN?

Basic course: November 29 & December 1 & 11 (10-13h)

Advanced course: November 30 & December 4, 12

WHERE?

Mir-Puig Elements

BLR (on November 30)

If you are interested in participating, please [REGISTER](#) by **November 21**

In the event that selection becomes necessary, two criteria will be taken into consideration:

- (i) Position at ICFO: Priority will be given to 3rd and 4th-year PhD students, followed by 1st and 2nd-year PhD students, finally post-docs and research engineers.
- (ii) Motivation to participate in the course.
